8 December 2020

FOR PARENTS OF CLOSE CONTACTS OF COVID 19 at Harriers Banbury Academy

Advice for Child to Self-Isolate for 14 Days

Dear parent or carer,

We were made aware this morning that we have a confirmed positive case of coronavirus (COVID-19) at Harriers Banbury Academy.

We have followed the national guidance and have identified that your child has been in close contact with the affected person. In line with the national guidance **your child** must stay at home and **self-isolate until 22 December 2020**, they may return to school when we reopen after the holidays on **4th January 2021**.

If your child is well at the end of the 14 days period of self-isolation, then they can return to usual activities.

Other members of your household **can continue** normal activities provided your child does not develop symptoms within the 14-day self-isolation period.

Please see the link to: Guidance for contacts of people with confirmed coronavirus (COVID-19) infection who do not live with the person

<https://www.gov.uk/government/publications/guidance-for-contacts-of-people-with-possible-or-confirmed-coronavirus-covid-19-infection-who-do-not-live-with-the-person>

What to do if your child develops symptoms of COVID 19

If your child develops symptoms of COVID-19, they should remain at home for at least 10 days from the date when their symptoms appeared. Anyone with symptoms will be eligible for testing and this can be arranged via <https://www.nhs.uk/ask-for-a-coronavirus-test> or by calling 119.

People who do not have symptoms should not request a test unless this has been specifically requested by Public Health England or the local authority.

All other household members who remain well must stay at home and not leave the house for 14 days. This includes anyone in your 'Support Bubble'.

The 14-day period starts from the day when the first person in the house became ill.

Household members should not go to work, school or public areas and exercise should be taken within the home. If you require help with buying groceries, other shopping or picking up medication, or walking a dog, you should ask friends or family. Alternatively, you can order your shopping online and medication by phone or online.

Household members staying at home for 14 days will greatly reduce the overall amount of infection the household could pass on to others in the community

If you are able to, try to move any vulnerable individuals (such as the elderly and those with underlying health conditions) out of your home, to stay with friends or family for the duration of the home isolation period.

Aspirations – Company Registration Number: 07867577

Symptoms of COVID 19

The most common symptoms of coronavirus (COVID-19) are recent onset of:

- new continuous cough and/or
- high temperature and/or
- a loss of, or change in, normal sense of taste or smell (anosmia)

For most people, coronavirus (COVID-19) will be a mild illness.

If your child does develop symptoms, you can seek advice from the nhs.uk website at <https://www.nhs.uk/conditions/coronavirus-covid-19/check-if-you-have-coronavirus-symptoms/>. If you are concerned about your child's symptoms, or they are worsening you can seek advice from NHS 111 at <https://111.nhs.uk/> or by phoning 111.

How to stop COVID-19 spreading

There are things you can do to help reduce the risk of you and anyone you live with getting ill with COVID 19

Do

- wash your hands with soap and water often – do this for at least 20 seconds
- use hand sanitiser gel if soap and water are not available
- wash your hands as soon as you get home
- cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze · put used tissues in the bin immediately and wash your hands afterwards

Further Information

Further information is available at

<https://www.nhs.uk/conditions/coronavirus-covid-19/>

We know that you may find this concerning but we are continuing to monitor the situation and are working closely with Public Health England. This letter is to inform you of the current situation and provide advice on how to support your child. Please be reassured that for most people, coronavirus (COVID-19) will be a mild illness.

We will set work for your child via Tapestry or Seesaw. Please contact the school office if you have any barriers to accessing our online home learning provision.

I am sure your child will be disappointed that they are missing some of the festivities we had planned over the next 2 weeks. We will do our best to keep them involved remotely and we will make sure that Red Kites and Parrots get to have a Christmas party of some sorts!

We thank you for your support and cooperation during what is a challenging time for everyone. Please contact the school if you need any further advice or support.

Yours faithfully,

Alex Pearson
